MOLSON

Throughout the year, the Mezzanine of the Hall Building vibrates with the sights and sounds of student life at Concordia. From the colourful displays of our various ethnic communities to the issue-oriented assemblies that touch the conscience of Concordians, the "Mezzanine" is a focal point of activity at Concordia.

FACULTY AND STAFF...

RECTOR'S MESSAGE

It is probably too soon for most of you to attempt to sum up your impressions of Concordia. Visions of final examinations, course change deadlines, and seemingly endless reading assignments are far too fresh in your minds to reflect objectively on the many benefits that accrue from a university education. As you look back in the years ahead, however, I am certain you will forget about the trials and tribulations associated with things like registration and concentrate on how your years at Concordia helped shape the course of your life.

Your decision to come here was your own. Some of you may have been influenced by our track record on part-time studies. If you are such a student, you must feel doubly proud of having successfully juggled family or career responsibilities (in some cases, both) with those of academe. Perhaps it was a particular programme or the lure of one of our colleges that attracted you to us. Whatever the reasons, I know that the teachers and classmates you met at Concordia will always be remembered fondly.

Life being what it is, some of the things you found here may not have been all that satisfying. Despite considerable success with our ongoing Capital Campaign and additional assistance from the Québec government, Concordia remains one of the most underfunded universities in Québec. For some of you that underfunding was translated into crowded classrooms, shortages in course materials, or lack of adequate study space. Yet despite limited resources and sometimes difficult conditions, you managed to excel in your field of study. Each obstacle was overcome, and in the end you learned how to research problems; how to ask meaningful questions; and most importantly of all, how to think critically.

Such skills will serve you well in later years. With employment opportunities likely remaining scarce and competition always fierce, resourcefulness and adaptability may well prove the deciding factors in allowing you to pull ahead of the pack. If the success of our past graduates is any indication, those traits most assuredly will.

Graduation is a time for congratulations for a job well-done, and I along with the entire Concordia community, extend them to you with our best wishes for continued achievement. The satisfaction and sense of accomplishment that you feel today belong to you and you alone, but you can be certain that your alma mater derives enormous pleasure in sharing them with you.

Sincerely,

A handwritten signature in dark ink, which appears to read "P. Kenniff". The signature is stylized with a long, sweeping horizontal line extending to the right.

The previous pages were brought to you in the hope of presenting a small sample of the population at Concordia. While it is true that a university would have no purpose if there were no students, it is also true that were it not for that part of the population (affectionately known in yearbook jargon as the faculty & staff) Concordia would just be a set of buildings housing students in need of services and guidance.

C.C.S.L. AWARDS

Fourteen students and three Student Services staff members were honoured at the annual Concordia Council on Student Life Awards Ceremony held on Friday, April 11. All were cited for having made an exceptional contribution to student life or Student Services at Concordia during the 1985-86 school year. Two graduate students, Victorya Monkman and Mary Janine Thomson and six undergraduate students, François Desrosiers, Keren Penney, Jacques Daviault, Luc Ferland, Peter Wheeland and Michael Judson were recipients of Outstanding Contribution Awards. Awards for most Outstanding Contribution to Student Life through Media were presented to Bob Pierce of THE CONCORDIAN, John Rayson of CIR1, Jennifer Feinberg of THE LINK and Karen Herland. In the Merit Award category presentations were made to Rita Halliday, Health Services, Nancy Doray, Legal Aid, Anne Shore, Campus Ministry, Gary Yentin, M.B.A. student and Jamil Mansour, chairman of the International/Ethnic Association Council. Among the presenters were former CCSL Awards recipients Gordon Ritchie, Fred Serre, Elizabeth Morey and Nancy Torbit. The reception was hosted by Dean of Students, Brian Counihan and Vice-Rector, Services, Graham Martin who is chairman of the Concordia Council on Student Life. Selection committee chairman, Brian Counihan, remarked that recipients were chosen from among the largest number of nominees ever received. He praised all nominees who represented a diverse cross-section of the University. Since these awards were established in 1978 more than one hundred Concordia persons have been honoured.

Good health is the most important thing in the world.

... FUN FOR THE WHOLE FAMILY!

"SKI-DOO" Bombardier

THE MOTORIZED

The young sled driver appears unaware that he has been pushed in the snow. The motor, which is mounted on the sled, is the only thing that is visible above the snow. The sled is moving down the slope, and the driver is holding the handles. The motor is a small, two-stroke engine, and it is the only thing that is visible above the snow. The sled is moving down the slope, and the driver is holding the handles. The motor is a small, two-stroke engine, and it is the only thing that is visible above the snow.

SPORTS

Nourishing food, thorough elimination, plenty of fresh air and exercise, plenty of rest and relaxation, and correct mental attitude—these are simple things, but in them will be found the essentials of health. People who overlook these important things have to pay an expensive price for their neglect. Taking care of one's health pays bigger dividends than any other investment of money or time. What pleasure is there in having wealth without health? What pleasure is there in anything if you do not have the health to enjoy it? Of what value is the temporary pleasure that is derived from wrong habits of eating and living, excesses in food or stimulants, or any other habits that are detrimental to health? Compare these things with the joy of having a strong, healthy, vital body with a keen, active mind.

Let us contrast the human body with an automobile. Occasionally, we see old automobiles, twenty-five or thirty years old, still running. The framework of these automobiles is practically the same as it was when it was first built twenty-five or thirty years previous. The wheels and the body are of the original material and have been in active service for twenty-five or thirty years; but some of the vital parts of the motor, the bearings of the wheels, and parts of the intricate mechanism of the carburetor have worn out and have been replaced with new ones. This is an act that had to be done by man and machinery.

If you hope to have health, you must give your body all the food elements required for energy and health. You must give it protein for muscle energy, fruits and vegetables for mineral salts and vitamins, and enough fats and carbohydrates to complete a balanced diet.

VITAMINS AND THEIR FUNCTIONS

- VITAMIN A:** Promotes growth and strength, makes skin and eyes clear, children require more of this vitamin than adults for when acting in their diet they cease to grow, low weight and suffer from low vitality. Eye conditions are often caused from lack of this vitamin. Found in spinach, sweet corn, carrots, whole milk, butter, fat, egg yolk, cod liver oil, tomatoes, carrots, green peas and sweet potatoes.
- VITAMIN B:** Is very necessary for the life and health of all human beings. Lack of this vitamin results in loss of appetite, foot and mouth disease, stunted growth, etc. Found in agurmes, cereals, citrus fruits and milk.
- VITAMIN C:** Very necessary to ward off scurvy. Scurvy is a disease caused by the lack of this vitamin. Orange and tomato juice, fresh fruits, lemons, carrots, tomatoes, radishes, and turnips contain this vitamin.
- VITAMIN D:** Is a bone builder as it controls and regulates the use of the bone and phosphorus in the body. Deficiency is caused from the lack of it. It is found in green vegetables, sunbath, alfalfa and cod liver oil.
- VITAMIN E:** Is necessary for fertility and affects both male and female. Found in wheat, germ, peas and olive oil.
- VITAMIN F:** Prevents stunted growth, rashes of scurvy, nervousness, paralysis, and is found in lettuce, green vegetables, etc.
- VITAMIN G:** Is present in milk, meat, etc., and prevents stomach disorders, skin eruptions and nervousness. Lack of it in the system causes the disease known as pellagra.

Too many people make vegetables in large quantities mineral salts and vitamins a to five minutes. Foods that not furnish the essential elements of the body.

the mistake of overcooking their foods. They will cook their food in water and for long periods of time until all of the essential elements are destroyed. Most vegetables should be cooked only from three to five minutes. Foods that are overcooked are as bad as no foods at all, because they do not furnish the essential elements, and they only help to bring about more congestion in

GOOD HEALTH REQUIRES GOOD FOODS

Do not overlook the importance of correct and pleasant with a pleasing disposition enjoying plain individual; and the cheerful, pleasant friends, and more of the better things of life.

mental attitude. The person who is cheerful better health than the pessimistic, complete person enjoys more happiness, more

If you hope to have health, you also must give your body plenty of fresh air, sunshine, and physical exercise. Along with your program of work and physical exercise, you must have a program of rest and relaxation. Too much of anything has a bad effect on the human body. Try to develop a medium which will enable you to balance your life and enjoy

When the connective tissue cells of the body wear out, they simply take the material from the blood stream to replace the worn out material. If the blood stream is polluted with nicotine, caffeine, alcohol, opiates, and uneliminated waste products, then the degeneration is as they could if they had good materials. People eat good food and keep the waste materials clean and pure and more vital, and the cells that are replaced automatically with good, strong, healthy cells to old age, enjoying good health.

the bone cells, or the skin cells, or the blood stream to replace the worn out material. If the blood stream is polluted with nicotine, caffeine, alcohol, opiates, and uneliminated waste products, then the degeneration is as they could if they had good materials. People eat good food and keep the waste materials clean and pure and more vital, and the cells that are replaced automatically with good, strong, healthy cells to old age, enjoying good health.

cells of the body themselves. They blood stream is polluted with nicotine, caffeine, alcohol, opiates, and uneliminated waste products, then the degeneration is as they could if they had good materials. People eat good food and keep the waste materials clean and pure and more vital, and the cells that are replaced automatically with good, strong, healthy cells to old age, enjoying good health.

consists of a combination of all the waste materials, supplying the body a sufficient amount of energy enough rest and relaxation for all these things can bring about

- SULPHUR:** Foods containing: Brussels sprouts, cabbage, endive, mustard greens, leeks, onions, radishes, beef, rapeseed, lebanese, etc. Deficiency: Acts on the liver, acts on the blood vessels and nerve tissue, causes skin eruptions, regulates metabolism, helps the hair, nails, skin, and the eyes, purifies and tones the system, warms the skin. Deficiency: Causes weakness and pain throughout the body, weak renal system, causes nervous, volatile emotions, flow of blood to the brain, skin eruptions, puffiness under the skin.
- IRON:** Foods containing: Lettuce, herbs, dandelion greens, egg yolk, kale, asparagus, artichokes, beets, spinach, mustard greens, tomatoes, blackberries, white rice, wild cherry juice, dates, prunes, strawberries. Deficiency: Makes red blood, may dilute blood, causes anemia, causes energy and vitality, absorbs oxygen, regulates blood flow from blood stream. Deficiency: Causes palpitation of heart, great fatigue, heavy mind, alternating pains in spine and kidneys, old age, cold feet, great craving for stimulants, and pale complexion.
- PHOSPHORUS:** Foods containing: Raw egg yolk, whole barley, whole wheat, corn, leeks, peas, lentils, quinquina, mustard greens, raisins, pumpkin, whole rice, rye meal, milk, squash. Deficiency: Acts on the bone and brain; strengthens mental powers; improves circulation of nerve tissue, especially heart tissue, agent of life and growth, aids in growth of hair. Deficiency: Causes neuritis, weakness at night, numbness of the skin, poor hair growth, shallow breathing, difficulty for exertion, muscle cramps.
- POTASSIUM:** Foods containing: Dried apricot, apple peel, dandelion, watermelon, lima beans, red beets, parsnip, cabbage, potato skin, brown, cabbage, figs, peaches, cornmeal, wheat, cornmeal, egg plant, barley, egg white, grapes, green peppers, parsnips, raisins, rhubarb, squash, tomatoes, lettuce, corn, chard, watermelon, whole wheat. Deficiency: Dilates fats, produces acidity, stimulates liver, controls muscular system. Deficiency: Causes nervousness, periodic headaches, chills and shivers, muscular weakness, swelling in stomach, muscular atrophy, muscular fatigue.
- CALCIUM:** Foods containing: Milk, cheese, shrimp, apricots, figs, cabbage, wheat, cauliflower, spinach, beets, leeks, raw egg yolk, lemons, moose, crabapples, radishes, cottage cheese, corn, salmon, dulse, corn, beans, endive, cornmeal. Deficiency: Builds bone, muscle, teeth, etc., constructs acid, aids vitality, soothes the nerves and decreases nervousness, stimulates courage. Deficiency: Causes lack of will power, inward fear, poor teeth, nervousness, poorly complexion, tired feeling with little exertion.
- BODILY:** Foods containing: Apple, celery, asparagus, string beans, turnips, carrots, beets, cabbage, egg whites, system, cranberry, lebanese, sprouts, avian chard, balsam, cornmeal, figs. Deficiency: Causes fermentation, prevents settling of blood, stimulates the system, regulates heat in body fluids, causes bowels and stomach to be active, neutralizes acids. Deficiency: Causes delayed digestion, frontal headaches, dry skin, sleep during the day and wakeful at night, joint pain, cold, acid medicine, figs, raw beets, whole wheat, corn, goat milk, wild rice, plum, dandelion greens, cornmeal.
- MAGNESIUM:** Foods containing: Mustard greens, grapefruit, oranges, figs, raw beets, whole wheat, corn, goat milk, wild rice, plum, dandelion greens, cornmeal. Deficiency: Promotes cell building in nerve matter; promotes secretion; aids constipation; soothes the nerves, and overcomes brain lag; cools the liver and reduces temper. Deficiency: Causes poor digestion, constipation, sleeplessness, tired liver, fits of temper.
- SILICON:** Foods containing: Asparagus, cucumbers, spinach, leeks, dandelion greens, onions, whole rice, parsnips, lebanese, barley, oats, figs, strawberries. Deficiency: Protective to skin and body; increases hair growth, regulates blood in scalp, powerful antacid, stimulates brain, gives grace to body, sprouts in eye, beauty promoter. Deficiency: Causes poor hair growth, cold sores, sleeplessness, nervousness, mental congestion, nervous dyspepsia, low body temperature, mental strain, nervousness in thighs, heart pressure, skin blotches, low bearing power.

It is important to note that regardless of how careful we are in the selection of our foods, we cannot assimilate these foods properly, unless we have good elimination through the bowels, kidneys, sweat glands, and all the other organs of elimination. It is also important to remember that many of us have to eat vegetables that have been in transit or storage until they have lost practically all of their mineral salts and vitamins. It is also true that many of our vegetables are grown on soils which are depleted and lacking in the necessary mineral salts and vitamins. In such cases, we do not get the necessary food elements, even when we are careful in the selection of our foods. That is why it is so important to add mineral salts and vitamin concentrates to the regular diet.

Vitamin and mineral deficiencies

Protein deficiency is less likely than vitamin and mineral deficiencies in the North American diet. Packing vitamins is not the answer; only body will build up a deficiency habit on vitamins. The following are vitamins and minerals that tend to get lost in the shuffle.

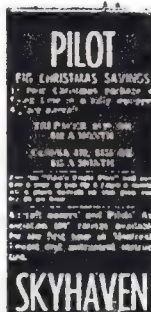

Vitamin or Mineral	Main deficiency symptoms	Best sources (vegetarian)
B-1 (Thiamine)	Depression, irritability, inability to concentrate	nutritional yeast, peas, beans (green), black, sunflower seeds
B-2 (Riboflavin)	Soreness at corners of mouth	collard greens, milk, broccoli, nutrie (dried) yeast
Niacin	Headaches, insomnia	lentils, cottage cheese, whole wheat bread, beans (navy), kidney
B-6 (Pyridoxine)	Soreness at corners of mouth	spinach, bananas, beans, peas, navy, lentils
B-12 (Cobalamin)	Sore tongue, indigestion	collard greens, milk, eggs
Folate	Same as B-12	spinach, nutritional yeast, beans, peas, garbanzo, white
Calcium	Brittle bones	beans (pinto, black, garbanzo), lentils, cottage cheese, wheat and rye bread
Iron	Too much protein and fat in the body blocks absorption of calcium	prune juice, beans (black), garbanzo, pinto, lentils, peas, molasses
	Pale skin, weakness	Iron is the most common deficiency in North America. It is especially prevalent in women
Zinc	Iron is the most common deficiency in North America. It is especially prevalent in women	bran, wheat germ, beans (black-rye), peas, garbanzo, lentils, peas, rice
	Wounds healing slowly	

Do not overlook the importance of correct mental attitude.

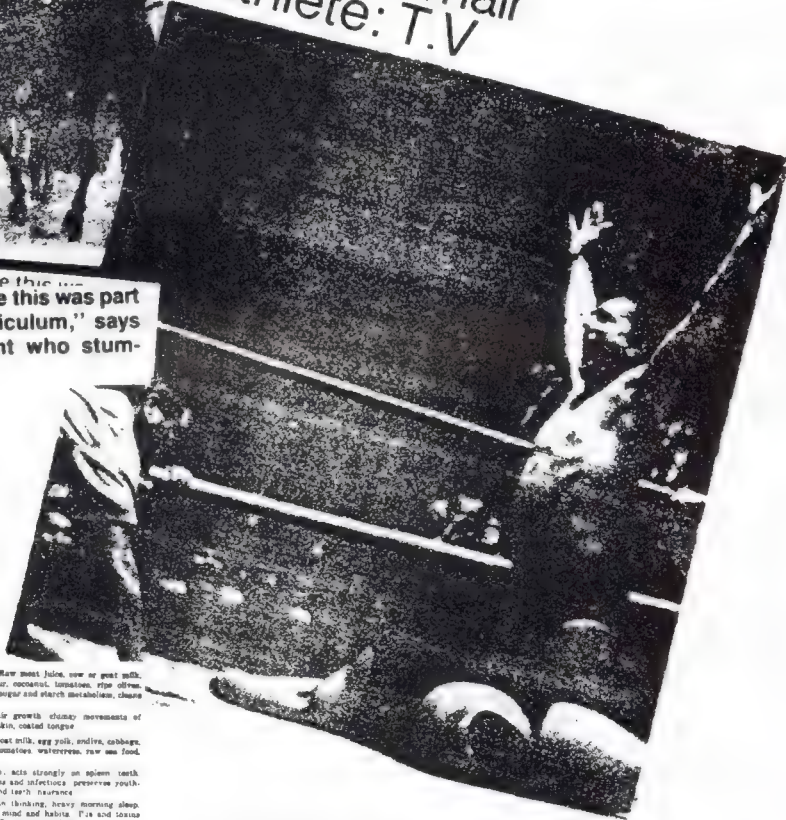

health, there is much that you can do for yours but there is not a great deal that anyone can do for you.

SKI TEAM

Coach: Francois Morrisson

The Concordia Ski Team celebrated an exciting racing season in 1986, with the women placing second in the team standings on the Q.U.A.A. alpine circuit. The women finished with 1012 points to McGill's 1086 to culminate a torrid pennant race lasting the entire season. Concordia's women were led by third-year veteran Jeanique Snyder, who finished fourth overall in the individual standings, sophomore Renata Sheib (6th overall), rookie Janice Campbell (9th), and another veteran, Catherine Daoust.

For the men, the pace was set by team captain Laurent Beauchemin who skied to his second consecutive bronze medal overall in two years. This year's award was accompanied by a \$200.00 bursary courtesy of the circuit's sponsors, Blizzard skis and Bernard Trottier Ski Mode.

The men did not fare as well in the team results, finishing fourth. Bright lights included veterans Marc Sheib (14th overall), Francois Perrier (18th) and Paul Johnson (20th). The rookies also gained valuable experience competing against a tough field which includes many former provincial team members.

Contrary to popular belief, the ski team has one of the longest seasons of any team on campus. Intensive dryland training starts in early September and continues on until the Christmas break. In November a four-day ski sale is held at the Loyola Campus Center in an effort to raise the minimum \$20 000.00 necessary for the team budget. This is an extensive undertaking in which all team members are obliged to participate.

Immediately after New Year's, an eight-day training camp is held at a ski resort to select the final roster. Only then does the team jell into a coherent unit.

In mid-January the competitions start. There are ten races spread over five full weekends, including out-of-town banquets every Saturday night. Skiers race four special slaloms, four giant slaloms and two dual slaloms (parallel courses with built-in pro bumps) to determine the Q.U.A.A. champions. The season winds up in late March with the CAN-AMS, a three-day invitational event featuring top racers from universities across Quebec, Ontario and New England. At the 1986 CAN-AMS Concordia finished sixth out of eighteen schools.

Finally, in April, with the snows melting rapidly, plans are laid for the following year. A new executive council is elected by members to manage team affairs. With dryland training, a major ski sale, Christmas camp and the hosting of a race weekend to organize, the executive invariably has its hands full.

YEAR IN REVIEW

For Concordia Stingers head basketball coach Doug Daigneault the 1985-86 season was indeed a difficult one to sum up. There were certainly plenty of positives to reflect on. In this his 19th season as coach, he recorded his 400th career victory November 9 when the Stingers beat the powerful York Yeomen 93-72 at the McGill University Invitational Tournament. Daigneault's troops won the three other tourneys they participated in, including their own Tip-Off and London Life Centennial competitions at the Loyola campus and the Toronto National. The coach's individual victory total now stands at 416.

The Stingers concluded the year with an overall record of 23-4. In conference play they were on their way to a perfect season winning eleven straight contests. But a back injury to star center Rob Latter didn't help matters as they dropped decisions of 88-70 and 68-66 to McGill in the regular season and conference finals respectively. Heading into the former contest the Stingers had surged to number one in the Canadian University rankings.

For Daigneault, losing the Quebec University Athletic Association final was indeed a heartbreaker. Ditto for the entire team. More than 1,000 fans jammed the Loyola campus gymnasium on that March 2 Sunday afternoon, one of many capacity crowds during the 1985-86 campaign. It was a see-saw affair all the way, with neither club being able to build more than a six point lead all game. In the final 37 seconds Concordia had the first opportunity to break a 66-66 tie, but missed. McGill got the ball back and Sandi Ciacia's field goal was right on the money.

Nonetheless, Concordia gained a wild card berth in a regional tournament at Lethbridge, going up against the host Pronghorns, Victoria and St. Francis Xavier. The Stingers had to settle for the consolation championship, an 83-73 triumph over St. Francis Xavier after losing game on 77-58 to Lethbridge.

Concordia concluded the year ranked number nine by the CIAU.

Daigneault was named QUAA coach of the year while Latter and guards Craig Norman and Biagio Caresse were selected to the conference's first all-star team.

Playing in each of the team's 27 games Norman scored 566 points, 18 less than his career high two seasons ago. The four year veteran, who will return again next year, had a per game average of 21 points and led the club with 238 field goals.

The six-foot eight, 225 pound Latter participated in 24 games and notched 476 points for a per game average of 19.8 he was good on 96 of 165 free throw attempts and pulled in 318 rebounds on both defence and offence.

Caresse, like Norman also in his fourth season, missed only one game. He had 388 points, or 14.9 per game.

In addition to the 'big three' Concordia was sparked by second year guard Chris Francis' 335 points and Bobby Verelli's strong two way play. When the season ended Daigneault had 17 men on his roster, all of whom will still have eligibility remaining when the 1986-87 campaign rolls around.

WOMEN'S BASKETBALL YEAR IN REVIEW

The Concordia women's basketball team headed into the 1985-86 season as the defending Quebec University Athletic Association champions. Nonetheless, it was clear this would be a rebuilding year. Mike Hickey had vacated the head coaching position a few months before the schedule got underway and rookie co-coaches Sylvia Sweeney and Poly Stevens were faced with the unenviable task of forming a team consisting primarily of newcomers. Only three holdovers from the championship season were in the lineup when the campaign began.

When the season concluded in February the lady Stingers were anxiously looking forward to next year, after suffering through a frustrating 0-27 season.

Coaches Sweeney and Stevens heaped much praise on their player, who showed an exceptional attitude throughout the campaign. Not once did they get down on themselves, nor take anything for granted. Practices were well attended and collectively they agree that the season served as a tremendous learning experience.

Sweeney, a former member of the Canadian Olympic women's basketball team, and one-time lady Stinger star, plans to stage clinics throughout the summer months. Immediately after the 1985-86 season ended, she and Stevens began recruiting.

VARSITY FOOTBALL YEAR IN REVIEW 1985-86

Head coach Skip Rochette's Stingers had an up and down 1985 Ontario-Quebec Intercollegiate Football Conference (O-QIFC) regular season, finishing in fourth place with a 2-4-1 record. However, as the old adage goes, playoff time marks the start of a new season and Concordia's boys of the grid headed out into the world of post-season play with exactly such an attitude, knocking off the powerhouse Queen's Golden Gaels 15-14 in overtime at Kingston. It was Daniel Malats' 80 yard single which sealed the victory. Standout running back Albert Caligiuro scampered for 194 yards on the ground.

The Stingers were not as lucky in the conference final in Ottawa, as they were beaten 46-21 by the Carleton Ravens. A big factor in the Concordia loss was the absence of Caligiuro who had to be scratched from the lineup two hours prior to game time because of a virus.

After splitting a pair of pre-season encounters, losing 27-1 to Wilfrid Laurier and edging Ottawa Gee-Gee 17-9, the Stingers had a tough start to the O-QIFC schedule. The first two contests of the campaign resulted in defeats of 26-23 and 22-18 to Queen's and McGill respectively. Concordia was able to pick up its first point of the season in game number three, battling Ottawa to a 7-7 tie in mud and rain at the Loyola campus. A week later, though, they hammered McGill 41-1 and then dumped Bishop's 25-11. However, the regular season ended with losses at Carleton (31-20) and Bishop's (27-24).

The season was highlighted by a number of individual honors. Linebacker Greg Miller completed his fifth and final year in a String uniform by gaining Canadian Interuniversity Athlete Union (CIAU) of O-QIFC all-star status. Offensive guard Gino Carlacci, defensive linebacker Joe Fortune and defensive back Jean Francois Godin were also given all-star recognition by the O-QIFC.

Caligiuro, meanwhile, received the ultimate tribute in February when he was chosen by the Calgary Stampeders in the Canadian Football League college draft.

MEN'S SOCCER YEAR IN REVIEW 1985-86

The 1985 Quebec University Athletic Association (QUAA) men's soccer season certainly goes down as a banner one for the Concordia Stringers. Head coach Andy Onorato led his gang of kicksters to the finest year in the program's history. All the club did was win the QUAA and CIAU Eastern Conference titles, coming to within a penalty kick of gaining national championship honors.

Concordia completed regular season play at a 6-0-2 clip, ending the five year reign of the McGill Redmen as QUAA champs. The Stingers also had the unique distinction of ending McGill's incredible 46 game unbeaten streak. Richard Enos' goal in the deciding game of the campaign proved to be the winner in a 2-1 Concordia triumph. And Concordia certainly did it the hard way, playing most of the second half with 10 players as a result of one of its players being ejected. Goalkeeper Alex Polidaro was steady between the pipes, despite being hobbled by a leg injury.

In the CIAU Eastern final Alan Pescatore scored the lone goal at the 18 minute mark as the Stingers blanked the University of Prince Edward Island Panthers 1-0 in Charlottetown.

It was then on to Victoria and date with the University of British Columbia Thunderbirds in the final. In heart-stopping controversial fashion UBC defeated the Stingers 2-1 in a game decided by sudden-death penalty kicks.

The Thunder Birds' Murray Mollard netted the winning goal in the seventh round of penalty kicks, beating a substitute goalie Wolfgang Rosner. Referee Frank Major had ejected Polidaro from the game in the previous round for arguing a ruling the official had made.

Rosner, Enos, Paul Musson and Ethelbert Anthony were selected to the QUAA all-star team; Enos and Musson also gained CIAU honors.

WOMEN'S SOCCER YEAR IN REVIEW 1985

Women's soccer at the Quebec university level was given a veritable shot in the arm this year when the Quebec University Athletic Association (QUAA) finally decided to form an organized league. Previously, teams had no choice but to compete in an exhibition schedule.

Concordia's entry, guided by Gerard McKee, played a six game schedule in a league which also included McGill, Universite du Quebec a Montreal and Sherbrooke. The lady Stingers finished in a tie for first place with McGill. Although both teams had identical 4-1-1 marks, the Martlets were crowned the champions in view of their superiority over Concordia during the season.

With the new league in place, and more schools reportedly thinking about entering teams, the future definitely looks bright for the sport in this province.

YEAR IN REVIEW 1985-86

The 1985-86 hockey season at Concordia was one filled with numerous highs and lows. Head coach Paul Arsenault, who completed his 22nd season behind the bench, utilized no less than 34 players during the course of the year as the Stingers compiled an overall record of 16-21-1.

Winners of nine consecutive Quebec University Hockey League (QUHL) championships between 1975 and 1984, the Stingers saw that streak come to an end two years ago when they completed the regular schedule with a 5-13-2 mark. With competition in the league getting tougher each year, Arsenault knew he had his work cut out for him to try and restore some vitality to the program. Going primarily with newcomers to the roster he put together a squad which finished the QUHL season with a record of 7-12-1. That was good enough for fourth place and a semi-final playoff berth against eventual league champion Universite du Quebec a Trois-Rivieres. Les Patriotes, who play out of Cap de la Madeleine, won the best of three series two games to one but the Stingers played them tough, scoring a 6-3 triumph at home in the second game before an enthusiastic crowd at the Loyola rink.

Concordia began the year on a high note, winning five of its first six non-conference encounters. However, the club couldn't get untracked in QUHL action and won only one of its first seven encounters. Heading into 1986 the Stingers had a cumulative record of 6-13. But the new year began with some flashes of brilliance from the past. The Stingers captured their own CBC - Micron Invitational Tournament with a thrilling 6-5 victory in the championship game over the University of Ottawa Gee-Gees. Not bad for a team which had lost its previous nine games heading into the January tourney.

Four year veteran forward Mark Kosturik concluded his university career in magical fashion, with 38 goals and 43 assists for 81 points. That made the 23-year-old North Bay, Ontario native the all-time leading scorer in Stingers history, with 257 points

(119 goals and 138 assists), five more than the previous mark set by Gilles Hebert two years ago. Hebert, however, took five years to accomplish his feat.

Hardnosed forward Frankie Morris, a native of Alexandria, Ontario, reached a sort of milestone himself. The four year veteran surpassed the 500 minute mark in penalties. His 145 penalty minutes on the year raised his career total to 572. Frankie scored 24 goals and added 16 assists in 33 games played. Arsenault used him as both a forward and defenceman.

First-year forward Franco Iammateo, a former standout performer in the Quebec Major Junior Hockey League with Longueuil, played in 29 games, scoring 15 goals and adding 30 assists. Rookie Jeff Carter, of Long Sault, Ontario, was the team's iron man. He suited up for all 38 games, scoring 18 goals and adding 20 assists.

Second year defencemen Neil Trineer enjoyed a productive campaign. The Toronto native, who spent three seasons in the Ontario Junior Hockey League prior to joining the Stingers, notched 39 points on 11 goals and 28 assists. He also enjoyed some celebrity status as a result of his cameo role in the motion picture "Youngblood".

In goals, Arsenault tried five netminders. Rookie Ken Hrivnak saw most of the action, playing a total of 1,133 minutes between the pipes. Veteran Tony Guerriero rejoined the club at mid-season, after sitting out the start of the campaign.

It is conceivable that at least 24 of the players who were part of the Stingers' roster this season, could be back at training camp next September.

WOMEN'S HOCKEY YEAR IN REVIEW

A Quebec Women's League playoff championship may have eluded them, but the Concordia women's hockey team can hold their heads high following a very successful 1985-86 season. Head coach Les Lawton guided his ladies off the ice to a 10-0-2 regular season record, good enough for first place. Although the John Abbott Islanders edged them out in the post-secondary final by winning the first two games of the best of three series, the Stingers can take solace in the fact they were crowned provincial championships in the "BB" category.

On the first weekend of March the club travelled to the Quebec championships in Drummondville, where they defeated Toulouse 3-2 in the title game. Goals by Janice McDougall, Jackie Montpetit and Debbie Gill sparked the Stingers to their first provincial crown. Concordia had won its four preliminary matches beating Toulouse 2-1, Sherbrooke 2-1, Laval 3-2 and Granby 3-1.

Against John Abbott in the QWHL final, the Islanders won the first game 3-1 and took game two with a thrilling 2-1 decision in overtime.

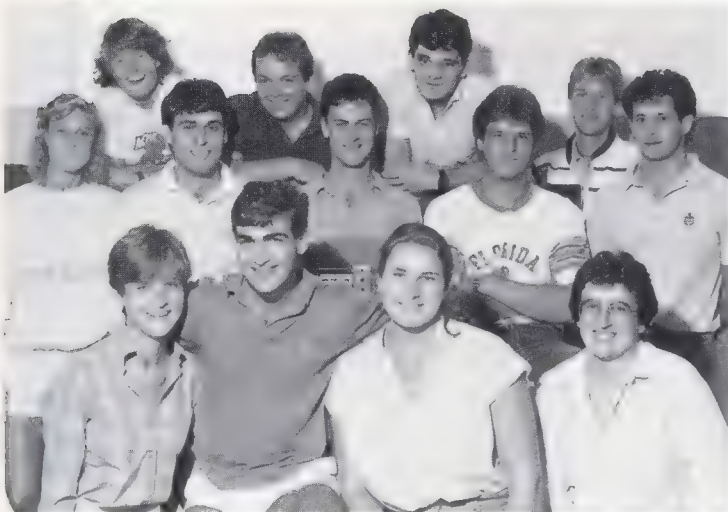

All in all, coach Lawton was very proud of his team's performance. It was quite an improvement from their 2-5-4 third place showing in 1984-85.

But this was also a season of tragedy for the lady pucksters. On her way home from a game one cold January evening second year Stinger forward Denise Beaudet was killed in a car accident. Coach Lawton likened her loss to that suffered by the NHL's Philadelphia Flyers, when their goaltender Pelle Lindbergh died in an automobile mishap last fall.

In memory of Denise Beaudet

A trophy is placed on the floor in the center of the front row, between the third and fourth men from the left. The background is a plain, light-colored wall.

CONCORDIA WRESTLING YEAR IN REVIEW

Not only will Concordia be shooting for a record fourth consecutive CIAU championship, but the national title meet will be held at the West End Loyola campus athletic complex. The team, coached by Victor Zilberman and Peter Hume, are quickly gaining notice across the country as a dynasty. The 1985-86 nationals at Mount Allison University in Sackville, New Brunswick is testament to that. Concordia wrestlers took home nine medals - five gold, three silver and one bronze - in piling up 36 points in team standings, 15 more than runner-up Saskatchewan. Doug Yates, Pat Sullivan, Graham Dadswell, Sylvain Marcil and his brother Serge were the gold medalists; Mike Enos, Mike Sullivan and Sean O'Heany grabbed silvers while Robert Watson captured the bronze. Zilberman was named Canadian University wrestling coach of the year.

-RESULTS-

Doug Yeats - Concordia
Pat Sullivan - Concordia
Graham Dadswell - Concordia
Sylvain Marcil - Concordia
Serge Marcil - Concordia

Mike Sullivan - Concordia
Mike Enos - Concordia
Sean O'Heany - Concordia

Robert Watson - Concordia

Concordia	36

YEARBOOK STAFF

Brian Counihan (Advisor), Joyce Angela Dupuis, Nathalie Gural, Marcelo Beilin, Cori Kalinowski, and Diane Coulas (Senior Editor).
Missing: Helena Song.

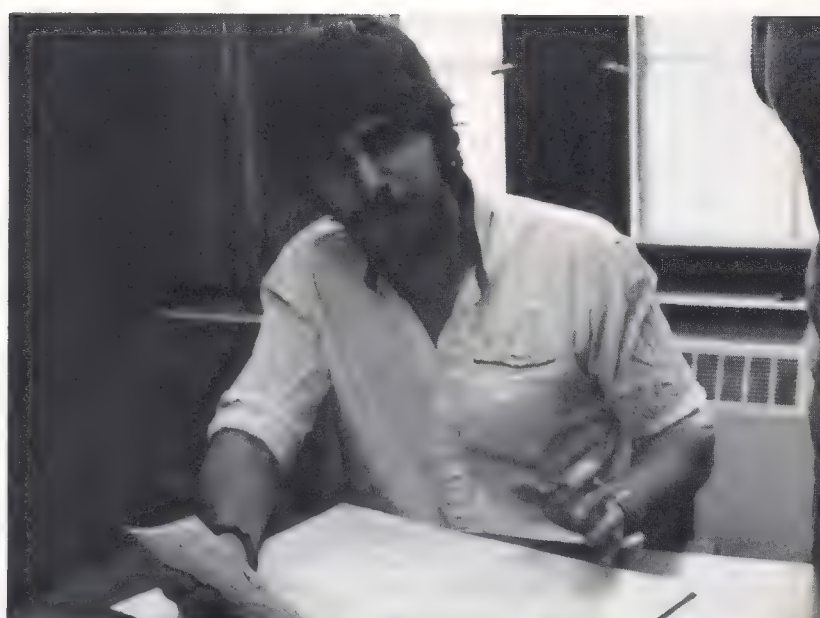

Normand Gohier (Photographer)

You see on these pages the results of many hours of labour (mostly on Sundays) by a dedicated group of your fellow students. Providing you with this permanent souvenir of Concordia University has been their motivation during the long winter months. We know that it has been possible to represent only a smattering of life at Concordia, but we believe that this collection will stimulate many happy memories of your years as a Concordia student.

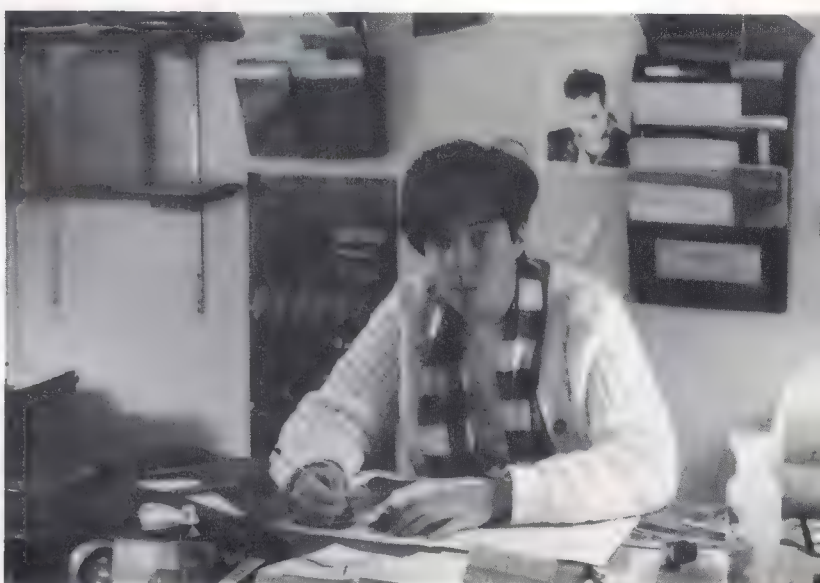

Helena Song

Marcelo Beilin

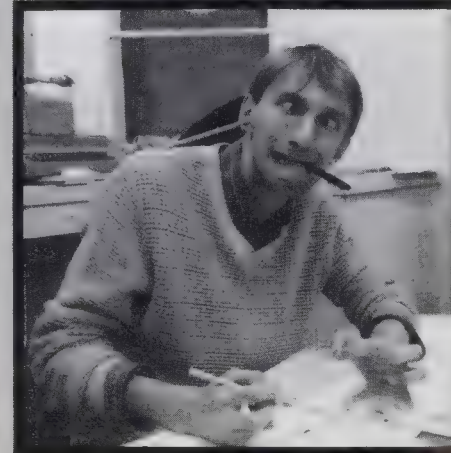

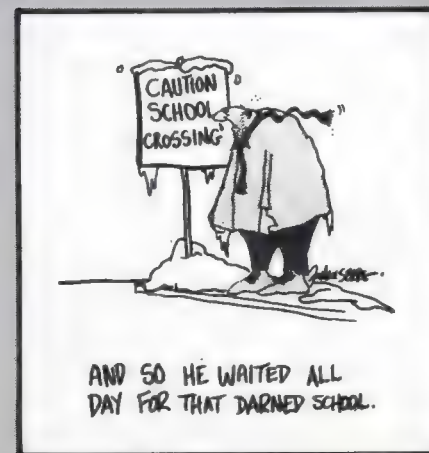

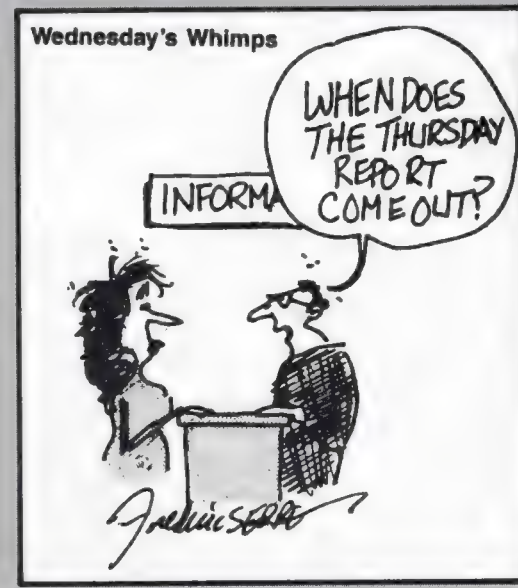

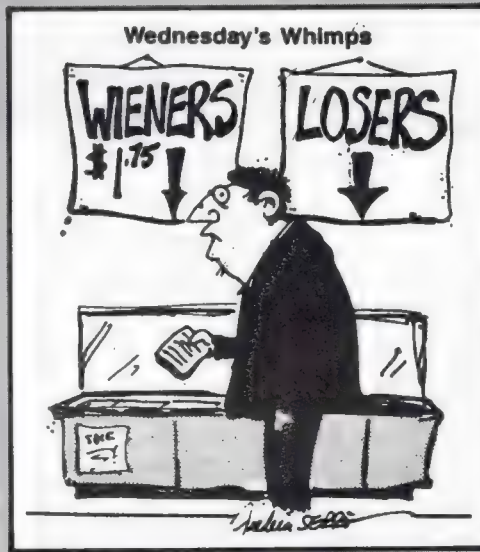

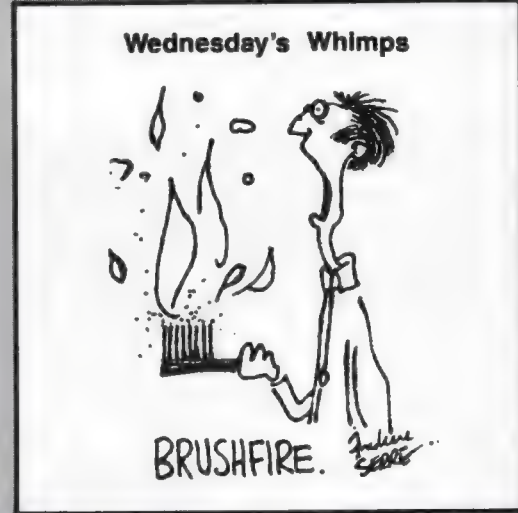

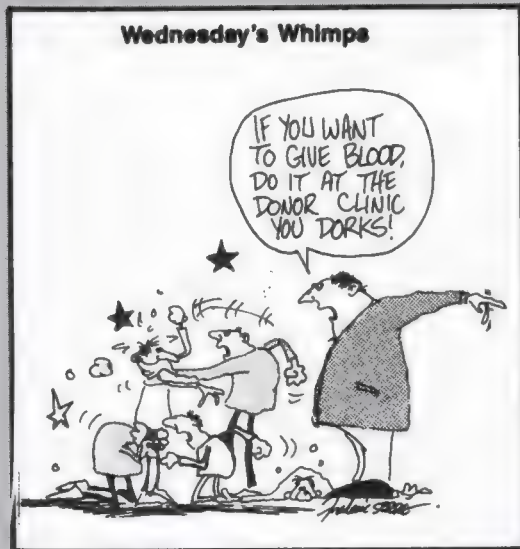

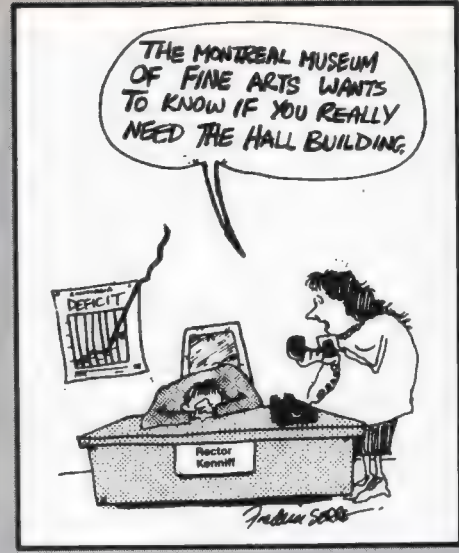

Cori Kalinowski

With Best Wishes for Success in the Years Ahead.
DEAN OF STUDENTS OFFICE

We Want You For Your Money

Let's be honest about it.
We do want you for your money.
For that, and much, much more.
Sure, the Concordia Alumni Association holds dinners
and parties and reunion extravaganzas.
Sure, we lay on special educational and cultural
events, and arrange special purchasing deals and
continuing library privileges for members.
And every few months everyone receives *Concordia
University Magazine* for free.

Sounds like a come on, right?

Right!

The fact is we organize all this because we need you.

To help in the decision-making that shapes the University.

To help in fund drives for better facilities and scholarships.

To help ensure programs correspond with the working world as you experience it.

To help student recruitment efforts.

And yes, we need you to give money (when you have it to give), to help pay for the things other schools take for granted but Concordia still needs.

In short, we need you to help make Concordia better.

But you don't just help others — in the end, you help yourself too.

The more active your alumni membership, the more Concordia's stature grows, and that reflects on your degree — and on you.

And you have fun in the bargain!

Every graduate is automatically enrolled in the membership of the Concordia University Alumni Association.

We hope you'll make your membership an active one.

Here's What We Do

Regular Contact:

Concordia University Magazine keeps readers posted on major developments at the university and some of the amazing things happening with graduates; news of coming events and other items of interest are also carried in the magazine or in supplemental mailings.

A Strong Voice:

Alumni concerns about university developments are voiced by representatives on the university's Board of Governors and in several advisory and decision-making bodies across the university.

The 1986 Concordia Alumni Board

Participatory Membership:

Graduates are asked to participate in freshman orientation programs, career workshops and in an increasing variety of academic and extra-curricular projects.

A Finely-Tuned Machine:

The association came into being in 1982 on the recommendation of the Sir George Williams and Loyola alumni associations. Its first objective is to create fellowship between the founding associations and to strengthen links with all graduates so that they can be a strong voice in shaping Concordia. Equally important is graduate involvement in advisory, fund-raising and student recruitment activity.

Graduating Class Officers: A vital part of the alumni are class officers who keep in touch with members of their graduating classes through newsletters and social and working get-togethers. They are the key people for organizing class reunions.

Alumni Records: Graduates change their addresses an average of seven times in the first 10 years after graduation; postage costs have become horrendous and so it's important that you keep the alumni office

posted on any change of address to avoid waste.

Chapter Network: There are now Concordia alumni chapters in Ottawa, Toronto, Winnipeg, Calgary, Edmonton, Vancouver, Victoria, San Francisco and Los Angeles, and new chapters spring up as demand occurs. Concordia, Sir George Williams and Loyola also maintain a busy schedule of activities in Montreal year round.

For More Information:

Please contact us at either of our campus locations.

Gary Richards
Director of Alumni Affairs

The Concordia University Alumni Association

Making the Best University Better

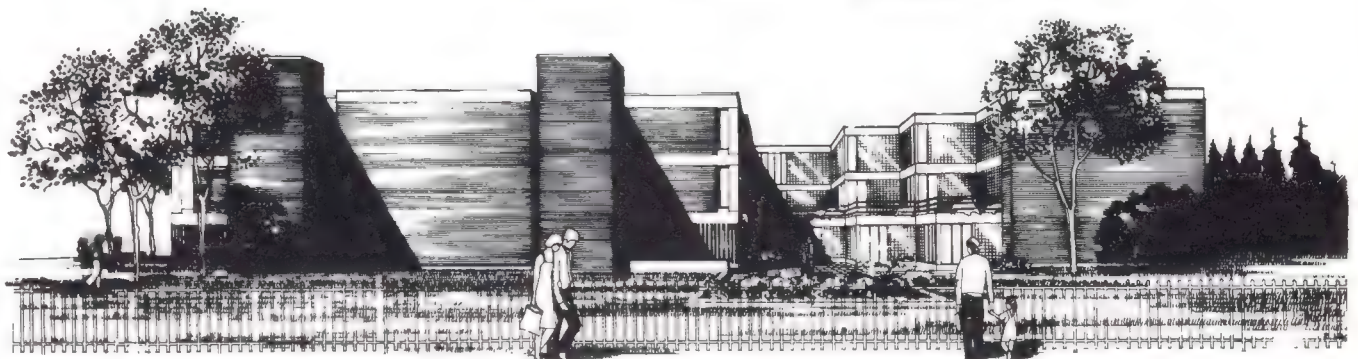

Building together to meet the challenge of the times.

University Library Centre — Sir George Williams Campus
View of nine-storey terraced and recessed structure as seen from the Henry F. Hall Building. The plan, devised by the architectural firm of Sankey Werleman Guy/Blouin, has been cited for fitting into the neighbourhood with "sensitivity" by Canadian Architect magazine which selected it for its award of excellence. The building will allow the library, as well as the Faculty of Commerce & Administration and several university departments to vacate scattered and costly rented facilities.

Vanier Library Extension — Loyola Campus
Lower illustration shows how extension (doubling Vanier Library space) will run east from the original block at left. Scattered facilities will be consolidated in the enlarged structure freeing areas for other pressing needs. One of these is a senate chamber. Since Loyola and Sir George Williams merged, facilities have had to be rented at the PSBGM headquarters building.

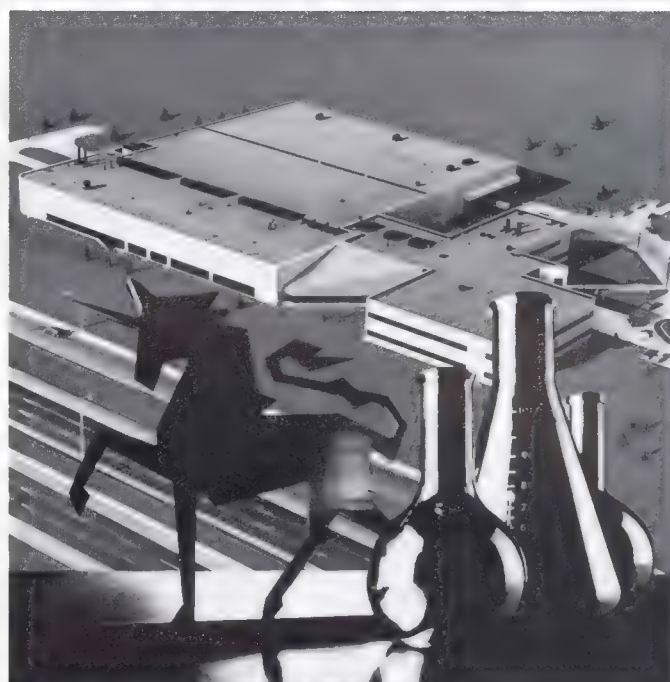

National Chairman, William W. Stinson, President, Canadian Pacific Limited
"I think it is important that we have a strong Concordia in Montreal — and for people to appreciate that Concordia serves all segments of the community — all levels of society. So if people see this, if they want their city to develop culturally and in economic terms, then they will see that Concordia needs library and laboratory facilities and I believe we shall get these people on board to help us."

THE POWER TO HEAL

Burroughs Wellcome Inc.
Manufacturers of a wide
range of prescription and
OTC pharmaceuticals
including:

- Actifed* and
Sudafed* for coughs
and colds
- Polysporin* and
Lidosporin* for
skin, eye and

A black and white advertisement for Pizzeria L'Authentique. The top half features the word 'pizzeria' in a large, stylized, cursive script. Below it, two phone numbers and addresses are listed: '5100 Hutchison Outremont H2V 4A9 (514) 274-9349' and '1446 'A' Crestview Montreal H3G 2B6 (514) 845-4158'. The bottom half shows a photograph of a pizza being cooked in a brick oven. Below the photo, the word 'L'AUTHENTIQUE' is written in a bold, serif font.

A decorative rectangular frame containing text. At the top, 'Congratulations' is written in a large, bold, serif font. Below it, 'to the' is in a smaller font, followed by 'CLASS of 86' in a large, bold, serif font. At the bottom, 'Audio-Visual Department' is written in a bold, serif font. The entire text is flanked by decorative vine and leaf motifs.

*Oh, I have slipped the surly bonds of
earth,
And danced the skies on laughter-sil-
vered wings;
Sunward I've climbed and joined the
tumbling mirth
Of sun-split clouds—and done a hun-
dred things
You have not dreamed of—wheeled
and soared and swung*

*High in the sunlit silence. Hov'ring
there,
I've chased the shouting wind along
and flung
My eager craft through footless halls
of air.
Up, up the long, delirious, burning
blue I've topped the wind-swept heights
with easy grace,
Where never lark, or even eagle,
flew;
And while with silent, lifting mind
I've trod
The high, untrespassed sanctity of
space,*

*Put out my hand, and touched the
face of God.*

- JACK NICKLAUS WINS MASTERS AT AGE 46

FINE ARTS REUNION - MAY 10, 1986

BREAKING GROUND

After a decade or more of planning and more than three years of fundraising a visible sign of Concordia's library construction project emerged on May 9, 1986 at a groundbreaking ceremony on the Loyola Campus. Of the \$25 million dollars (plus \$18 million grant from Quebec) that the university hopes to collect during its Capital Campaign \$5,250,000.00 will be spent to enlarge the Vanier Library. Seen here turning the sod are D.W. McNaughton, Chairman of the Board of Governors, P. Kenniff, Rector, A. Mate, Director of Libraries and J. Dougherty, MNA Jacques Cartier and Parliamentary Assistant to the Minister of Education.
